MEMORANDUM FOR: Staff and Division Personnel, DD/P  
SUBJECT: Anti-Communist Operations Course and Related Instruction

1. A new specialized course providing instruction in clandestine operations against Communists and Communist organizations will begin on 16 August 1954. This Anti-Communist Operations Course (ACO) will be three weeks in length and will be conducted in [REDACTED]. Registration will be in accordance with established procedures. TOP SECRET clearance is required.

25X1A

2. The course will deal with the planning, supervision and conduct of both FI and PP operations. A tentative outline of the course is attached. Enrollment will be restricted to personnel of the Clandestine Services who are or will be directly concerned with anti-Communist operations, either at Headquarters or in the Field.

3. Prerequisites for this course are the Basic Training Courses (Phases I, II, and III) and the Communist Party Operations Course (CPO), or equivalent familiarity with clandestine operations and the basic facts of Communist theory, history, tactics, and organization.

4. The new ACO is the third and most advanced phase of instruction in the general field of Communism. A student receives his basic introduction to Communist theory and organization in the "Communist Week" of Phase I, BTP. For a detailed exposition of the theory, history, organization, and operating methods of the World Communist Movement, the student may then take the course heretofore known as the Communist Party Operations Course (CPO). If he is qualified by the nature of his operational assignment, he may then take the ACO.

5. The relatively small amount of anti-Communist operational material which has previously been presented in the CPO will be eliminated from that course. The course will otherwise be unchanged. In order to avoid confusion, the CPO will hereafter be known as the Course on World Communism (CWC). In order to be admitted to the CWC, students must have taken the "Communist Week" of Phase I, BTP, or possess equivalent information. Students who have already taken the CPO will find very little duplication of its material in the new ACO and need not hesitate to take the new course for that reason.

S-E-C-R-E-T

S-E-C-R-E-T

6. The CWC (formerly CPO) will be three weeks in length and classes are scheduled to begin on 16 August, 27 September, and 8 November 1954. Dates for additional presentations of the ACO will be announced after the demand for it becomes more clearly established.
